European Operations & Global Manufacturing Power

Strong Manufacturing Infrastructure. European Structure. Global Reach.

Kargopek Europe is a packaging manufacturer positioned with high production capacity, advanced machinery infrastructure, and an international operational structure.

Our production facilities in Istanbul operate with modern production lines and state-of-the-art technology, achieving a **monthly production capacity exceeding 500 tons**. This strong manufacturing backbone enables us to respond to high-volume demands with consistent quality, speed, and continuity.

Advanced Manufacturing Infrastructure

Our production processes are structured to meet the requirements of global markets:

- Modern extrusion, converting, and printing lines
- Infrastructure suitable for high-volume and continuous production
- Flexible manufacturing adapted to different market and customer needs
- Production processes aligned with international quality standards

This structure positions Kargopek Europe not only as a manufacturer, but as a **scalable and reliable production partner**.

Strong Organization with European Presence

To remain closer to the European market and maintain effective communication with our partners, we operate with a dual-center operational model:

- **Production & Operations Hub:** Istanbul, Türkiye
- **European Liaison & Sales Office:** Athens, Greece

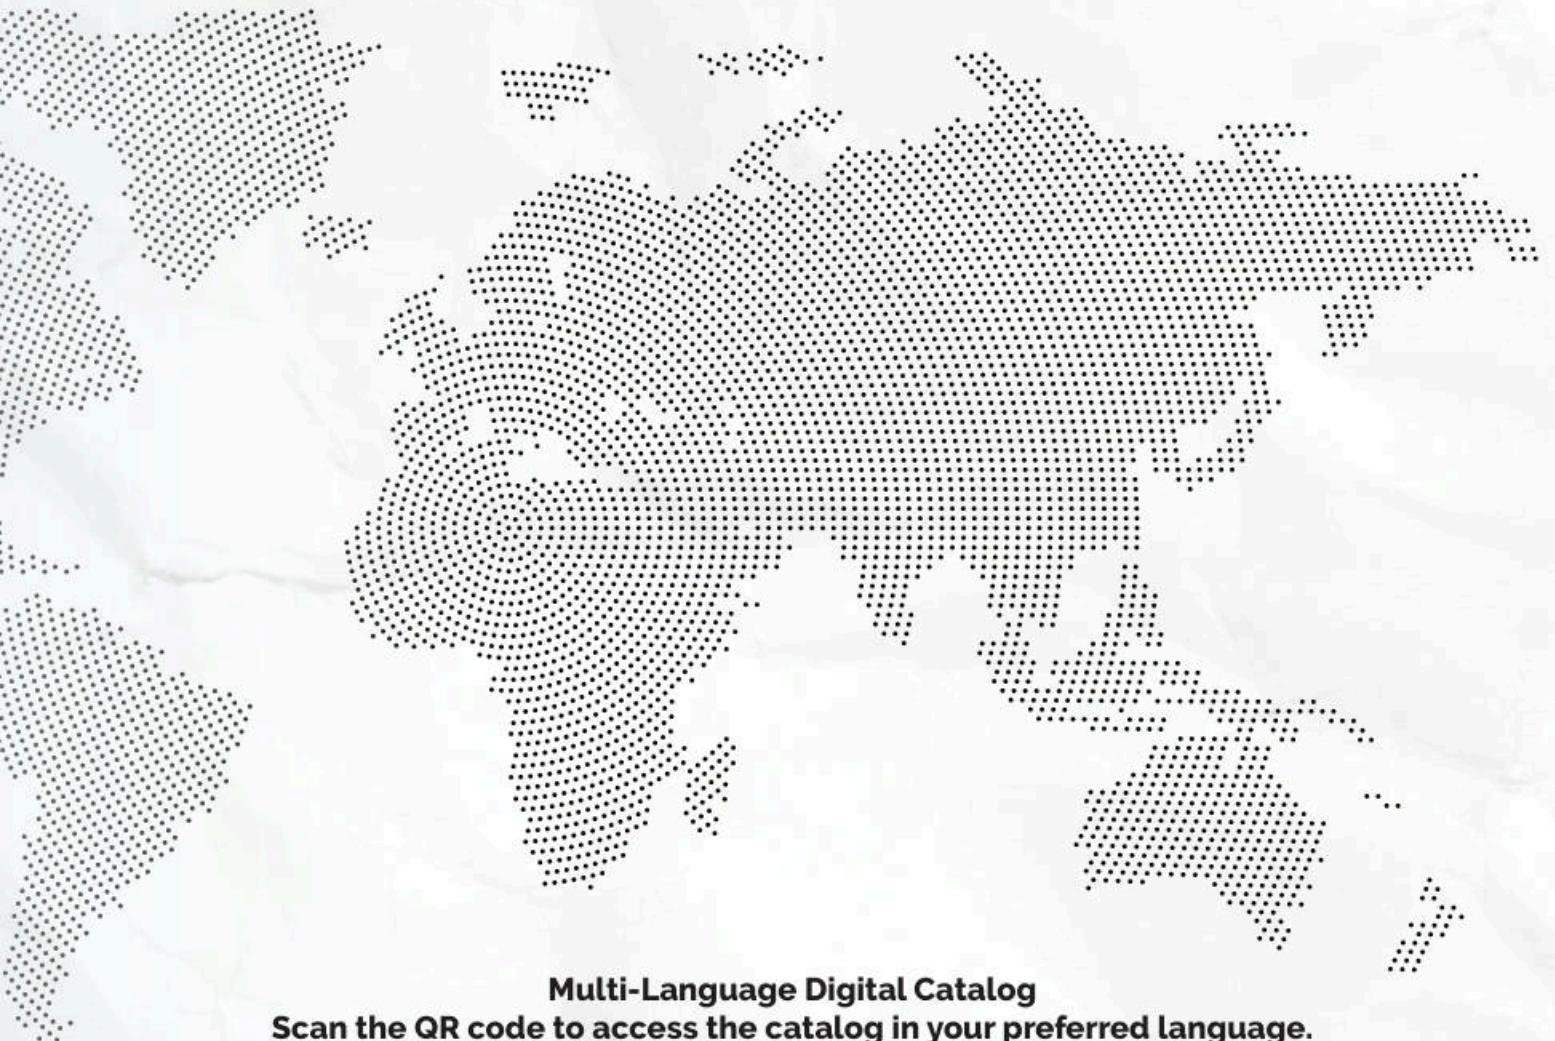

Our European office in Greece coordinates sales and commercial processes, enabling fast, transparent, and sustainable communication with our European partners.

Global Export Capability

Kargopek Europe is an export-oriented manufacturer supplying packaging solutions primarily to Europe and to various regions worldwide. Our strong production capacity, logistics planning capability, and flexible operational structure allow us to respond efficiently to diverse international market needs.

A Long-Term Business Partner

For Kargopek Europe, manufacturing is not only about meeting today's demands, but about building **long-term partnerships, sustainable growth, and mutual trust**.

Production Capacity & Technical Infrastructure

Strong Infrastructure, Scalable Production, Consistent Quality

Kargopek Europe's production strength is built on advanced machinery, infrastructure suitable for high-volume manufacturing, and continuously optimized production processes. This structure allows us to respond to diverse market demands with **consistent quality, speed, and reliability**.

High-Capacity Production Infrastructure

- Modern extrusion lines
- Precision cutting and converting systems
- High-resolution, multi-color printing capabilities
- Automation-compatible production lines

Scalable Capacity & Planning

A monthly production capacity exceeding 500 tons ensures continuity for large-volume and long-term orders.

AI-Supported Formulation, Production & Quality Monitoring

AI-supported systems continuously monitor formulation, production efficiency, and quality processes, enabling early detection of deviations and enhanced quality consistency.

BUILT FOR SCALE. READY FOR EUROPE.

Recycling & Sustainability

Shaping the Future with a Circular Production Approach

At Kargopek Europe, we see packaging production not merely as a manufacturing process, but as a **responsible circular system**. With this approach, we develop sustainable solutions that reduce environmental impact and ensure efficient use of resources.

Closed-Loop System with Our Own Recycling Facility

Thanks to our in-house recycling facility, production waste is carefully processed and converted back into raw material. This enables us to:

- Minimize waste generation
- Optimize resource efficiency
- Ensure traceability and consistent quality

Use of PCR Raw Materials

PCR (Post-Consumer Recycled) materials play a key role in our product range. PCR materials:

- Are derived from post-consumer recycled plastics
- Help reduce carbon footprint
- Support the circular economy

Sustainability Is a Standard, Not an Option

At Kargopek Europe, sustainability is not an add-on, but a **core production principle**, balancing today's needs with tomorrow's responsibility.

Sertifika

CERTIFICATE

KARGOPEK DIŐ TİCARET ANONİM ŐİRKETİ

15 TEMMUZ MAH. 1508. SK. NO: 2 BAĐCILAR/İSTANBUL/TÜRKİYE

ISO 9001:2015

Kapsam/Scope

PLASTİKTEN MAMÜL, AMBALAJLAMA VE SARMA MALZEMELERİ, GIDA AMBALAJLARI (FİLM, TORBA, POŐET, RULO VB.) ÜRETİMİ VE SATIŐI
PLASTIC PRODUCTS PACKAGING AND WRAPING MATERIALS, FOOD PACKAGING (FILM, BAG, BAG, ROLL ETC.) PRODUCTION AND SALES

IAF KOD:14

Bu sertifika ile yukarıda adı geçen kuruluşun Kalite Yönetim Sistemi gerekliliklerini karşıladığı tasdik olunur.

This is to certify that the above mentioned company meets the requirement of Quality Management System.

Sertifika No / Certification Number	: MTS-49653
İlk Kayıt Tarihi / Date of Initial Reg.	: 2.04.2026
Başarı Tarihi / Date of Certificate	: 2.04.2026
Geçerlilik Tarihi / Date of Expiry	: 1.04.2027
Revizyon / Revision	: 000

Bu sertifika kuruluşun belgelendirmeye girdiği alanın ve yolda en az 1 kez yapılacak olan güncellenmesi için düzenli olarak her yıl sertifikasyon periyodu bitiş tarihine kadar geçerlidir.

This certificate is valid until the end of the three-year certification period if the organization complies with the certification requirements and the surveillance audits to be carried out at least once a year are completed successfully.

COURIER BAGS

PRINTED COURIER BAGS

Courier bags that can be produced with brand logos and custom designs, enhancing brand visibility during shipment.

HANDLE COURIER BAGS

Courier bags with handle design, providing ease of use during handling and shipping processes.

COURIER BAGS

COURIER BAGS WITH DOCUMENT POCKET

Courier bags specially produced with document pockets for the **documents, invoices, or** safe transportation of delivery notes,

UNPRINTED COURIER BAGS

Durable and cost-effective courier bags produced for e-commerce and logistics shipments. Available in various sizes and thicknesses to ensure secure transportation.

WICKETED BAGS

WICKETED COURIER BAGS

Courier bags suitable for high-volume and serial packing lines, compatible with automated systems.

WICKETED COURIER BAGS

Courier bags with special alignment for automated filling and packaging machines, offering fast and orderly usage.

ZIPPER BAGS

GRIP SEAL BAGS

Grip seal bags with a **press-to-close locking mechanism**, offering fast and convenient opening and closing.

HANDLE ZIPPER BAGS

Handle zipper bags designed with a **carry handle**, providing ease of transport and practical use.

ZIPPER BAGS

ZIPPER BAGS

Zipper bags featuring a strong and secure zipper closure, ensuring safe protection of products.

RESEALABLE LOCK BAGS

Resealable lock bags with an easy open-and-close system, designed for repeated use. Ideal for product storage and organization.

PP BAGS

BOPP BAGS

PP-based bags offering high transparency, widely preferred for textile and retail product presentation.

CPP BAGS

PP bags with a softer structure, providing flexible usage and commonly preferred across various industries.

FOOD PACKAGING

VACUUM BAGS

Vacuum bags produced with an airtight structure to preserve product freshness.

DOYPACK

Stand-up pouches designed for food and consumer products, ideal for shelf display.

SHOPPING BAGS

DIE-CUT HANDLE SHOPPING BAG

Handle shopping bags designed for retail stores, offering an aesthetic appearance and easy carrying.

LOOP HANDLE SHOPPING BAG

Shopping bags with reinforced handles, providing comfortable and reliable carrying.

INDUSTRIAL PACKAGING

PALLET COVER

Pallet covers used to protect products from external factors during storage and transportation.

PE ROLL

Polyethylene rolls produced in various sizes, suitable for different industrial applications.

SECURITY TAPE

Safety and warning tapes used for security and identification during storage and shipment.

SHRINK FILM

Shrink film that tightly wraps products through heat application, providing secure industrial packaging.

BIO BASED BAGS

BIODEGRADABLE ZIPPER BAGS

Eco-friendly zipper bags made from biodegradable materials.

BIODEGRADABLE SHOPPING BAGS

Biodegradable shopping bags developed for sustainability-focused brands.

BIODEGRADABLE PRODUCT BAGS

Eco-friendly product bags produced for environmentally conscious packaging needs.

BIODEGRADABLE COUIRER BAGS

Biodegradable courier bags offering an eco-friendly alternative for e-commerce shipments.
